HITACHI

Smarter air from anywhere

version 3.0

3x Smarter

Smart-Fence

Automatically stop and start your AC as you leave and return home.

Voice control

Connect with your smart speaker and set your indoor climate via voice control.

Energy cost estimator*

Track the energy consumption and follow the cost impact on your budget.

air Cloud Home

As you arrive home

Your AC will automatically turn on, helping to create a comfortable and welcoming indoor climate.

As you leave home

Your AC will stop automatically or switch to a more economic preset temperature to save you energy.

Enabling Smart-Fence

- 1. Set your Smart-Fence perimeter from 500m to 10km around your house.
- 2. Select your preferred AC behavior as you leave or enter your Smart-Fence perimeter.
- 3. Enjoy smarter air, from anywhere. Smart-Fence activation notifications will be sent to your phone and other pre-defined users' automatically.
- 4. Adjust the AC temperature or reset Smart-Fence any time from your airCloud Home app.

 $^{\star}\text{May not be available in some Hitachi air conditioners. Please consult your Hitachi Cooling \& Heating representative.}$

Connect with your smart speaker.

your voice

airCloud Home is fully-compatible with Amazon Alexa and Google Assistant, enabling you to change the temperature hands-free while you cook, clean, or exercise.

Google Home²

Plan to save energy

Intuitive scheduling options work around your needs.

Use the simple timer before bed and save energy while you sleep, and use the weekly timer to schedule AC operation around your daily routine.

¹ Amazon Echo supports English, French, Italian, Spanish, German

Designed for your convenience

Register in just a few steps

It's very easy to get started with airCloud Home. Quickly create your account online and configure your air conditioner with ease.

Unlimited connections

Access to an unlimited number of homes and add all your Hitachi air conditioners without limitation.

FrostWash activation

With airCloud Home, you can activate Hitachi exclusive self-cleaning function while you're away, and contribute to preserving your indoor air quality.

App available in 21 languages

English, French, Italian, Spanish, German, Portuguese (BR & EU), Dutch, Danish, Swedish, Thai, Chinese (Traditional & Simplified), Indonesia, Polish, Hungarian, Czech, Romanian, Greek, Croatian, Slovenian, Vietnamese, Malay

Share access with your family

airCloud Home allows you to give access to up to 20 people. You can choose to apply restrictions for the children.

Easy troubleshooting

In the event of an AC malfunction, you will receive an error code and be able to contact your service provider from the app.

Data security

Your security is our priority. With high security standards, only a minimal amount of personal data is required to set up your account.

How airCloud Home works

Connect your air conditioner to the cloud, via your home wireless network.

*Compatibility varies depending on air conditioner models.

Quick set up

QR code recognition enables you to pair your app to your air conditioner in an instant.

Download for free

The installation of an airCloud Adapter might be required (available as an accessory).

^{**}Router shall be able to support 2.4GHz band.
